Fundamentals of Defense Supply Chain Management (FDSCM)

The US Army Logistics Management College is preparing to offer its pilot offering of the
FDSCM course. Class dates are 15-19 August 2005.

DOD Logistics Transformation involves applying new logistics techniques and better business practices to produce more effective and efficient logistics operations from the strategic to the tactical level. Supply Chain Management provides the basis for how DOD is transforming logistically, and as such, has become a critical training need in the development of professional military and civilian logisticians within DOD.

For FY 06, ALMC has tentatively scheduled four offerings of DEF-SCM to be conducted in residence at Fort Lee.

- 17 – 21 Oct 05
- 30 Jan – 4 Feb 06
- 22 – 26 May 06
- 7 – 11 Aug 06

For additional information on DEF-SCM and on how to register to attend the pilot class in August or any of the FY 06 offerings, please contact CDR Rob Turner at:

Course Outline

Day One:

- Introduction into Concepts of Supply Chain Management in the Commercial Sector
- Supply-chain Operations Reference-Model (SCOR) Overview
- Case Study/Simulation

Day Two:

- Defense Supply-Chain Model
- Materiel Requirements Determination
- Purchasing
- Material Management
- Case Study

Day Three:

- Repair/Maintenance
- Materiel Distribution
- Transportation
- Interactive Exercise

Day Four:

- Materiel Returns/Disposition
- Supply-Chain Tools/ RFID
- Supply-Chain Performance Measurements
- CRM

Day Five:

- Defense Supply-Chain Case Study/Simulation or Panel Discussions
- Future of Supply-Chain Management in DoD

About ALMC

The United States Army Logistics Management College (ALMC) was established in 1954 with the mission to conduct a 12-week Army Supply Management Course. Today, we are a multi-faceted institution and graduate nearly 30,000 students annually. We are dedicated to providing quality products and services.

As one of three US Army Training and Doctrine Command colleges, ALMC shares in a common objective to ensure that our Armed Forces stay trained and are ready to fight and win quickly with minimum casualties and loss of resources. Our role in pursuit of this objective is to develop and present quality education programs in logistics science, management science, and acquisition management to personnel of the Department of Defense, other Federal agencies, and foreign governments. In addition, ALMC offers research and consulting services that contribute to materiel readiness and improve acquisition and logistics management. We also provide information services for use throughout the Federal Government.

ALMC Vision: Be the premier trainer and educator of the future force for battlefield success.

ALMC Mission: Enhance the readiness and sustainability of US forces in joint, interagency, and multinational operations through training, education, consulting and research.

For help in enrolling students in the Army Training Resource Requirements System (ATRRS), please access the ATRRS Help Desk via the ALMC web page at www.almc.army.mil or phone (804) 765-0007 or DSN 539-0007.
